

SECTION 11

11.03 OTHER STANDARDS TO APPLY:

Chapter 11 addresses only nonpotable water. All Standards that apply to 4 inch through 12 inch distribution mains, and to 16 inch and 20 inch transmission mains, and 24 inch and larger conduits including meters, valves, service line and backflow prevention and easements shall apply to nonpotable water systems along with the supplemental requirement and exceptions stated herein. In case of conflict with any other Section, this Chapter shall govern for nonpotable water.
